County Engineer's Report:

I will be on vacation July 7th and return on July 17th. The Otterville road project has been resurfaced, the rumble strips have been installed along the shoulder and center line, center line striping is done and they have started on the edge striping. The final stage of the project will be to remove and replace the existing signs. After next week the project should be complete. We have continued oiling and chipping for the townships. We have been mowing and spraying. The road use agreement for the Hickory Solar Project is getting finalized and should be signed soon. It is my understanding the project will begin in a couple of weeks. In regard to the bridge on Fieldon Hollow Road, I followed up again with the property owners concerning right of way before the final design is done. I met with them and they are not receptive to selling us right of way, I will have to get with the consultant to see what our options are. The bridge will be built but I was hoping to flatten the road and do some other improvements. I will keep you informed.

Miscellaneous Business

None

Adjourn:

Sandy Hefner made the motion to adjourn the meeting, seconded by Edward Koenig. Motion Carried 5-0.

Meeting adjourned at 8:10 a.m.
